Developer:
William Smith
Publisher:
PixelTail Games
Release Date: 20 Apr, 2016

a09c17d780

English

tower unite - original soundtrack

A very sexy OST to listen to.

I hope they update it, its missing quite a few tracks!. best video game soundtrack I have ever actually heard, no\u2665\u2665\u2665\u2665\u2665 10V10.. lovely music made with passion! you can hear that!

my pleasure to support the devs, cuz they all deserved it! <3. buy it to give money to Will for his amazing work

dont buy it to actually listen to the songs

This "soundtrack" downloads 900MB of songs that you already have downloaded. It does not use the Steam Music Player, and when I tried to add the songs to Steam, only about 80% of them actually ported. Midori was in the 20%. It was easier, and 100% cheaper to go to Will's Soundcloud, or Bandcamp and listen to the tracks there.

Also this soundtrack is outdated. It's "probably going to be updated" for over a year now, so good luck.. This soundtrack is an absolute banger! Highly recommend you pick it up.

(Also buy it to support the devs). Bought this just to support the game :P
